Subject: Eagle River Station/Haymeadow Development

To the Town of Eagle -

There is an extremely large contingency of Eagle residents that are very upset with the continued discussion and progress through the Town Council concerning the Eagle River Station project as well as the Haymeadow project. There continues to be large amount of unoccupied homes and out of work residents that prove that the town is not ready for thousands of more homes and businesses. This was talked about in the past, and democratically put down by a vote by the residents of the Town of Eagle. How come the discussion did not end there, and continues to progress without the backing of the members of this community? Recently there has been a movement by local leaders to sign petitions against the developments, these developers, and the Town Council that continues to move forward with these developments. I signed it, and so did majority of my neighbors, co-workers, and other town residents completely upset and aggravated that the town continues to proceed in a direction that we are all adamantly apposed to. There has also been mention of hiring a legal team to go to court against this proposal. It is sad that we need to go to those measures to make sure a town proceeds in the direction that its citizens want it to.
