Thank you Nora,

We will place your email in the public record which means the Board of Trustees will receive a copy and will be available to the public.

Subject: Eagle River Station

Hi Willy,

I wasn't able to make it last night, but I wanted to share with you that I really believe in Eagle River Station. Tracey Hoff wrote an article in the Vail Daily that said everything I wanted to say.

"Don't Stilt This Opportunity" - Eagle Town Trustees

"I wish to express my overwhelming support of the Eagle River Station project. We need this project to create jobs and additional sales tax revenue. We need to grow as a community; not stagnate and die. I am getting tired of seeing my community members suffer, lose their jobs, and then lose their homes when there is a positive alternative on the horizon. I am sure you had naysayers about the Eagle Ranch project, but look at what a success that has been for our community.

Don't stifle our opportunity for growth. Change is inevitable. Take the reins and lead us forth. Let positive growth rule the change!"

In addition, I was at Target in Glenwood Springs with two of my neighbors late last week. While shopping, we started to discuss that we could be spending our money in Eagle at a Target or similar stores, and not giving our sales tax to Glenwood Springs.

I hope this project goes through. Thank you, Willy.
