

PROPOSED NOGAL PARK IMPROVEMENTS

OVERVIEW OF NOGAL PARK IMPROVEMENTS

1. Remove dilapidated, smaller playground area and volleyball court; regrade southwest corner of park to create a flat, field area; and, install 90' x 115' turf area that can serve as:
 - One (1) U8 Soccer Field; or,
 - Two (2) side by side U6 Soccer Fields
2. Install Split Rail fence with wire mesh along bike path to catch stray balls and/or trash
3. Install 16' x 20' Picnic Shelter on concrete slab
 - Existing 12' x 12' Picnic Shelter should be expanded to provide space for larger groups.
 - Relocate existing picnic tables in the town park to larger picnic shelter. Replace existing picnic tables that are in disrepair and consider purchasing additional picnic tables if larger picnic shelter has space to accommodate additional picnic tables.
 - Relocate existing BBQ grill and install second BBQ grill near larger picnic shelter.
4. Install 50' x 47' Basketball Court
 - Relocate existing basketball court to existing parking area.
 - Regrade existing parking area to provide a flat playing surface for relocated basketball court.
5. Reduce parking from 9-10 spaces to 2 spaces
 - Current parking area is used primarily for Eagle Villas resident parking. Reducing the number of parking spaces and locating park parking further from the Eagle Villas will help to ensure that parking is used for park purposes and not for resident parking.
 - Relocate existing tree, which is located in the area for the proposed soccer field, near new parking area to provide shade for parked vehicles.
6. Keep existing playground area
 - Some of the existing playground equipment will need to be replaced for safety reasons.
